

# Bala Kids Dentistry

## Teledentistry Consultation

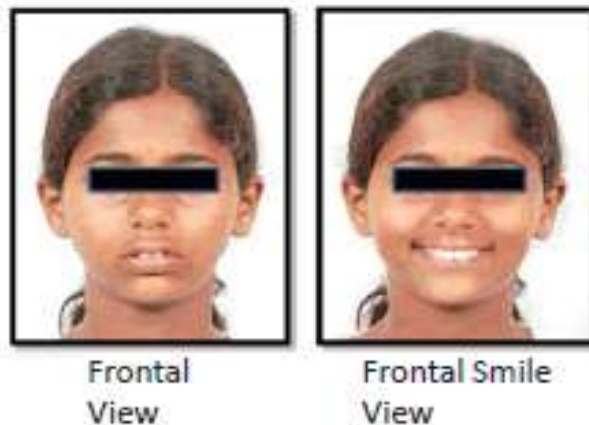

Prior to your teledentistry consultation, please have all of the following:

- A completed patient [registration form](#) found on our website [www.BalaKidsDentistry.com](http://www.BalaKidsDentistry.com) if you have not done so previously.
- We kindly ask you to have any or all questions for the provider ready before your scheduled teledentistry consultation, since appointments are allotted for **20 minutes** from the start of the call.
- Also, intraoral and extraoral photos (such as the photos seen below) taken of the patient would be extremely beneficial during the consultation. Whether it's a specific area in the mouth causing discomfort, the more angles we can see, the better we can help you! Please share these via our secure text messaging system at 610-336-8478 (610-DENTIST) or share to our e-mail address at: [info@BalaKidsDentistry.com](mailto:info@BalaKidsDentistry.com).
